

Sahil Ahire

+91 7744930470 | ahiresahil101@gmail.com | linkedin.com/in/sahilahire | github.com/sahilahire29
Pune, Maharashtra, India

Education

MIT ADT University

B.Tech in Computer Engineering (Artificial Intelligence & Analytics)

Aug 2022 – Jun 2026

7.2

Technical Skills

Languages: Python, C++, Java, SQL, HTML, CSS

AI/ML: Generative AI, LLMs, NLP, Deep Learning, Computer Vision

Frameworks/Libraries: PyTorch, TensorFlow, FastAPI, OpenCV, Scikit-learn, React

Databases: PostgreSQL, FAISS

Tools & Platforms: Git

Other Technical Skills: RAG Systems, Hugging Face Transformers, PEFT (LoRA), Weights & Biases (W&B)

Experience

Prodigy InfoTech

Generative AI Intern

Dec 2024 – Jan 2025

Pune, Maharashtra, India

- Engineered AI and machine learning workflows, focusing on analytical problem-solving and model experimentation to enhance AI capabilities.
- Contributed to the implementation of AI-based solutions, deepening technical understanding of modern AI infrastructure and its applications.

ARCADE Game Development & Metaverse Club

Treasurer

Aug 2024 – Aug 2025

Pune, Maharashtra, India

- Oversaw budgeting and expense tracking, ensuring efficient resource allocation for club events and activities.
- Coordinated event resource planning, enhancing club engagement and participation through well-organized activities.

AGRATAS Academy

Campus Ambassador

Dec 2023 – Jun 2026

Pune, Maharashtra, India

- Organized and promoted student engagement events and workshops, fostering a collaborative learning environment.

Projects

AI-Powered Law Consultant Chatbot (LawBot)

/ Tech Stack: Mistral-7B, FastAPI, React, PostgreSQL, FAISS, WebSockets

- Developed a legal AI assistant utilizing Retrieval-Augmented Generation (RAG) to enhance user interaction.
- Integrated FAISS-based vector search and real-time chat functionality, improving response accuracy and user experience.

Solidity Smart Contract Vulnerability Detection using Deep Learning

/ Tech Stack: PyTorch, Hugging Face Transformers, CodeBERT, W&B

- Constructed a deep learning pipeline for identifying vulnerabilities in Solidity smart contracts, achieving an impressive 99.96% accuracy during training and experimentation.

Image Super-Resolution using ESRGAN

- Engineered an ESRGAN-based image enhancement system to improve the quality of low-resolution images.

Image-to-Image Translation using Pix2Pix

- Implemented a conditional GAN model for transforming images, showcasing advanced capabilities in image processing.

Black-and-White Image Colorization

- Developed a CNN-based pipeline for colorizing grayscale images, enhancing visual appeal and detail.

Fitness Tracking Application

- Designed a fitness tracking application featuring workout monitoring capabilities, promoting user engagement in health and fitness.

Leadership / Extracurricular

Volunteer at Prashraya Welfare Foundation (Team Aashraya)

- Coordinated community outreach and student engagement initiatives, enhancing community involvement and support.
- Organized a state-level hackathon for college, fostering innovation and collaboration among participants.
- Participated in technical workshops and AI learning programs, expanding knowledge and skills in the field.

Certifications

- Generative AI, Microsoft
- TensorFlow, GDSC MIT ADT University
- PyTorch Machine Learning, LinkedIn Learning
- Natural Language Processing, LinkedIn Learning
- Computer Vision Applications, LinkedIn Learning
- Microsoft Certified: Azure AI Apps and Agents Developer Associate, Microsoft, 2026 | LinkedIn ↗

Publications

- LawBot: Making Legal Help Simple and Accessible with AI, IJARSCT, 2026 | Link ↗
